Balance of Payments Statistics Bulletin

ត្រីមាសទី១ ឆ្នាំ២០២៥ លេខ ៨៧

First Quarter 2025, Series No. 87

Message from the Governor

National Bank of Cambodia (NBC) is pleased to introduce the 87th edition, the First Quarter of 2025 of Cambodia's Balance of Payments Statistics (CBOPS) Bulletin, which is compiled quarterly in Khmer Riel and published by the NBC in Khmer and English. The quarterly CBOPS bulletin consists of a time series statistics on balance of payments, international investment position and external debt statistics including a brief description on the current context of the external sector of Cambodia. The online copy of the bulletin and other detailed statistical tables are available on the NBC's website.

The NBC would like to inform that Cambodia's Balance of Payments Statistics is compiled based on the *Sixth Edition of the Balance of Payments and International Investment Position Manual (BPM6)*, published in 2009, by the International Monetary Fund (IMF). The NBC will continuously improve and enhance the new compilation methodology – BPM6 – in order to produce BOP data output in consistent with a standardized BOP presentation, contributing to an efficient analysis by the data users.

In the “Technical Notes”, at the end of this bulletin, there is a summary for the readers, data users and publics to get a basic understanding on the new BPM6 compilation manual including the concepts and definition, data sources, compilation methodology, and a summary of the changes between BPM5 and BPM6.

The NBC would like to thank the relevant governmental organizations and data providers for their invaluable cooperation and contributions toward the sustainability of BOP compilation as well as the publication of CBOPS Quarterly Bulletin to date.

Thank you very much for your interest in the CBOPS Quarterly Bulletin.

Governor

Chea Serey

Forthcoming issues

Issue	Expected
<i>Second Quarter 2025</i>	<i>30 September 2025</i>

Changes in this issue

This release included revisions in the Current and Capital accounts, Financial accounts, International Investment Position table, and External Debt table.

The revisions on the Current and Capital accounts on services account in government goods and services n.i.e. (credit) in the fourth quarter of 2024.

The revisions on the Financial Account included 1/- Net acquisition of financial assets on other investment from the second quarter to the second quarter to fourth quarter of 2024 and 2/- Net incurrence of liabilities on other investment in Cambodia in the fourth quarter of 2024.

The revisions on the International Investment Position table included 1/-Total assets on other investment items from the second quarter of 2023 to the fourth quarter of 2024 and 2/- Total Liabilities in the fourth quarter of 2024.

The revisions on the External Debt in the General Government on loan in the fourth quarter of 2024.

These revisions have been made mainly due to the changes in data sources and compilation methodologies.

Changes in next issue

Changes will also be made to some other BOP components following the revised estimates by data sources.

KEY POINTS

In the first quarter of 2025, Cambodia's Balance of Payments posted a surplus of KHR 495 billion, decreased by 78.2% compared to a surplus of KHR 2,272 billion in the previous quarter, due to a switch in the financial account from net incurrence of liabilities to net acquisition of financial assets, while the current and capital accounts switched from a deficit to a surplus. Current and capital accounts showed a surplus of KHR 152 billion, reversed from a deficit of KHR 3,156 billion in the fourth quarter of 2024. This was triggered by a decrease in the deficit of balance on goods and primary income account together with an increase in the surplus of service account, while the surplus of secondary income account declined.

Figure 1: Current and Capital Accounts Aggregates

Financial account recorded net acquisition of financial assets of KHR 3,307 billion, switched from net incurrence of liabilities of KHR 4,557 billion in the previous quarter, primarily driven by a shift from net incurrence of liabilities to net acquisition of financial assets in other investment and a decrease in net incurrence of liabilities of direct investment, while net incurrence of liabilities switched from net acquisition of financial assets in portfolio investment.

As of the end of the first quarter of 2025, Cambodia's international investment position indicated net external liabilities of KHR 182,866 billion, increased by KHR 38,760 billion (26.9%) from KHR 144,106 billion at the end of previous quarter. Compared to the end of the same quarter last year, international investment position showed an increase in net external liabilities of KHR 33,451 billion (22.4%) from KHR 149,415 billion.

ANALYSIS OF ESTIMATES
CURRENT AND CAPITAL ACCOUNTS
CURRENT ACCOUNT

The current account registered a surplus of KHR 119 billion, shifted from a deficit of KHR 3,283 billion in the previous quarter. This result was triggered by a decrease in the deficit of balance on goods and primary income account together with an increase in the surplus of service account, while the surplus of secondary income account declined. Compared to the same period last year, this account decreased by KHR 1,997 billion (94.4%) from a surplus of KHR 2,117 billion.

GOODS

The balance on goods had a deficit of KHR 5,046 billion, decreased by KHR 2,995 billion (37.2%) from a deficit of KHR 8,040 billion in the previous quarter, but it increased by KHR 2,295 billion (83.4%) from a deficit of KHR 2,751 billion in the same period last year.

Figure 2: Exports and Imports

Exports of goods were KHR 28,388 billion, increased by KHR 2,026 billion (7.7%) from KHR 26,362 billion in the previous quarter. The increase in exports of goods was significantly driven by the increases in exports of agricultural products by KHR 1,910 billion (41.7%), other textiles by KHR 141 billion (5.9%) bicycles by KHR 97 billion (20.7%), and garments by KHR 55 billion (0.6%); while export of footwear decreased by KHR 32 billion (1.7%) and electrical part by KHR 27 billion (4.6%). Compared to the same period last year, exports of goods increased by KHR 2,496 billion (9.6%) from KHR 25,893 billion.

Imports of goods were KHR 33,434 billion, decreased by KHR 969 billion (2.8%) from KHR 34,403 billion in the previous quarter. The decrease in imports of goods was primarily contributed by the decreases in imports of garment materials by KHR 1,326 billion (19.6%) and food and beverage by KHR 254 billion (12.5%); while imports of petroleum increased by KHR 1,830 billion (51.5%), vehicles by KHR 383 billion (20.6%), and construction materials and equipment by KHR 261 billion (7.9%). Compared to the same period last year, imports of goods increased by KHR 4,791 billion (16.7%) from KHR 28,643 billion.

SERVICES

The services account recorded a surplus of KHR 2,707 billion, an increase of KHR 384 billion (16.5%) from a surplus of KHR 2,323 billion in the last quarter, and KHR 776 billion (40.2%) from a surplus of KHR 1,931 billion in the same period last year. The increase in this surplus was mainly due to the increase in exports of services while the imports of services declined.

Exports of services were KHR 5,830 billion, a rise of KHR 229 billion (4.1%) from KHR 5,602 billion in the last quarter, primarily due to the increases in exports of travel services by KHR 290 billion (7.1%), insurance and pension services by KHR 20 billion (2.1 times), financial services by KHR 17 billion (4 times), transportation services by KHR 16 billion (2.3%), government goods and services n.i.e. by KHR 15 billion (8.2%), and other business services by KHR 2 billion (1.3%). Meanwhile, exports of telecommunication, computer, and information services declined by KHR 114 billion (33.5%), construction services by KHR 15 billion (14.2%), charges for the use of intellectual property n.i.e. by KHR 2 billion (31%), and personal, cultural and recreational services by KHR 0.03 billion (2.1%). Over the same period last year, exports of services increased by KHR 939 billion (19.2%) from KHR 4,891 billion.

Figure 3: Services (Credits and Debits)

Imports of services were KHR 3,123 billion, a decline of KHR 155 billion (4.7%) from KHR 3,278 billion in the last quarter, resulted from the decreases in imports of travel services by KHR 55 billion (6.4%), construction services by KHR 50 billion (51.9%), insurance and pension services by KHR 39 billion (13.2%), financial services by KHR 19 billion (60.5%), government goods and services n.i.e. by KHR 14 billion (26.6%) and personal, cultural and recreational services by KHR 1 billion (38%). Meanwhile, imports of telecommunication, computer, and information services increased by KHR 15 billion (9.3%), charges for the use of intellectual property n.i.e. by KHR 8 billion (9.2%), transportation services by KHR 1 billion (0.04%), and other business services by KHR 0.3 billion (0.2%). Over the same period last year, imports of services increased by KHR 163 billion (5.5%) from KHR 2,960 billion.

PRIMARY INCOME

Primary income indicated a deficit of KHR 737 billion, decreased by KHR 44 billion (5.7%) from a deficit of KHR 782 billion in the previous quarter, due to a faster increase in primary income credits compare to the primary income debits. Primary income deficit increased by KHR 442 billion (1.5 times) from a deficit of KHR 295 billion in the same period last year.

Primary income credits were KHR 598 billion, increased by KHR 186 billion (45%) from KHR 412 billion in the previous quarter, mainly contributed by the increase in investment income KHR 160 billion (53%) and compensation of employees KHR 25 billion (23.1%). Compare to the same quarter last year, primary income credits decreased by KHR 49 billion (7.6%) from KHR 648 billion.

Primary income debits were KHR 1,335 billion, increased by KHR 142 billion (11.9%) from KHR 1,194 billion in the previous quarter, due to an increase of KHR 177 billion (17.9%) in investment income, while compensation of employees decreased by KHR 36 billion (17.2%). Primary income debits rose by KHR 392 billion (41.6%) from KHR 943 billion in the same period last year.

Figure 4: Primary Income (Credits and Debits)

SECONDARY INCOME

Secondary income posted a surplus of KHR 3,206 billion, a decrease of KHR 10 billion (0.3%) from a surplus of KHR 3,216 billion in the previous period, primarily a sharper decline in secondary income credits compared to the decline in secondary income debits. The surplus in secondary income decreased by KHR 26 billion (0.8%) from a surplus of KHR 3,232 billion in the same quarter last year.

Secondary income credits were KHR 3,423 billion, a decrease of KHR 54 billion (1.6%) from KHR 3,477 billion in the previous period, as a result from a reduction in the general government KHR 49 billion (10.6%) and other sectors KHR 5 billion (0.2%). Compared to the same quarter last year, secondary income credit decreased by KHR 35 billion (1%) from KHR 3,458 billion.

Figure 5: Secondary Income (Credits and Debits)

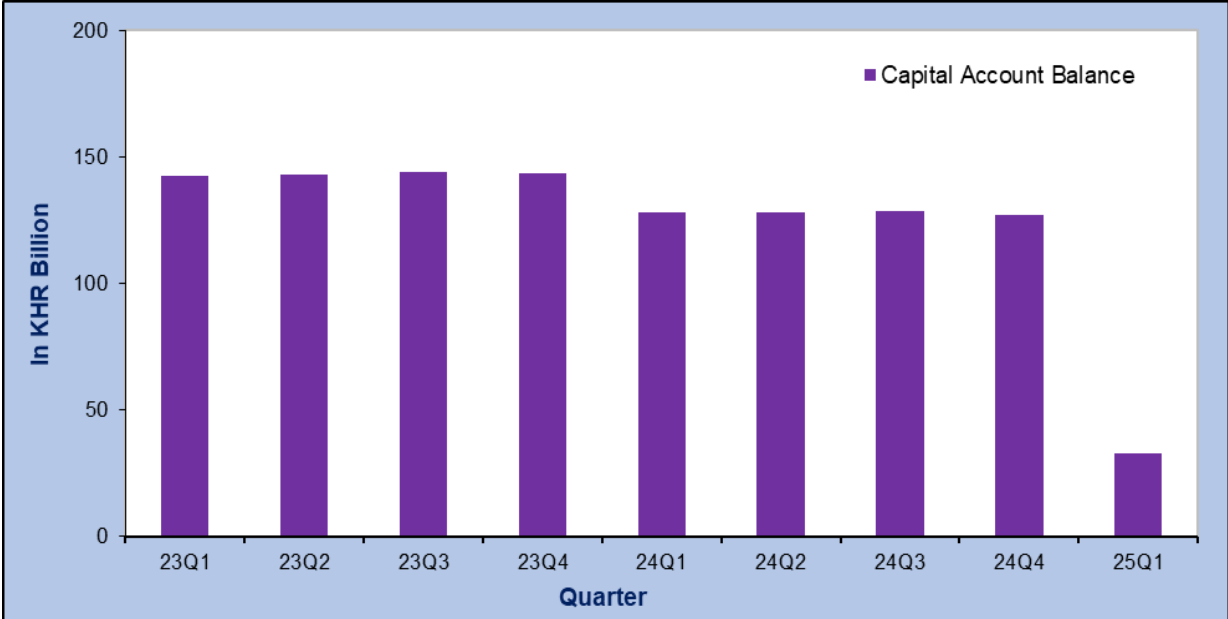

Secondary income debits were KHR 218 billion, a decrease of KHR 44 billion (16.8%) from KHR 262 billion in the last quarter, resulting primarily from the decreases of KHR 48 billion (92%) in general government, while other sectors increased by KHR 4 billion (1.9%). Compared to the same quarter last year, secondary income debits declined by KHR 9 billion (3.9%) from KHR 227 billion.

CAPITAL ACCOUNT

Capital account recorded a surplus of KHR 33 billion, decreased by KHR 94 billion (74.1%) compared to the previous quarter. The surplus in capital account declined by KHR 95 billion (74.3%) from KHR 128 billion in the same period last year.

Figure 6: Capital Account

FINANCIAL ACCOUNT

Balance on financial account registered net acquisition of financial assets of KHR 3,307 billion switched from net incurrence of liabilities of KHR 4,557 billion, in the previous quarter. Financial account increased by KHR 2,351 billion (2.5 times) from net acquisition of financial assets of KHR 956 billion in the same period last year.

Net direct investment recorded net incurrence of liabilities of KHR 3,968 billion, decreased by KHR 986 billion (19.9%) from net incurrence of liabilities of KHR 4,954 billion in the previous quarter, resulted mainly from a decline in foreign direct investment in Cambodia. Year-on-year changes, net incurrence of liabilities of the net direct investment increased by KHR 159 billion (4.2%) from net incurrence of liabilities of KHR 3,809 billion.

Foreign direct investment in Cambodia was KHR 4,128 billion, decreased by KHR 985 billion (19.3%) from KHR 5,114 billion in the previous quarter. Year-on-year changes, foreign direct investment in Cambodia increased by KHR 186 billion (4.7%) from KHR 3,943 billion.

Figure 7: Financial Account Aggregates

Portfolio investment recorded net incurrence of liabilities of KHR 942 billion, switched from net acquisition of financial assets of KHR 481 billion in the previous quarter. Year-on-Year changes, net incurrence of liabilities of this account increased by KHR 415 billion (78.9%) from KHR 526 billion.

Other investments posted net acquisition of financial assets of KHR 7,723 billion, shifted from net incurrence of liabilities of KHR 2,356 billion in the previous quarter. Year-on-Year changes, net acquisition of financial assets of this account increased by KHR 1,792 billion (30.2%) from KHR 5,930 billion.

In the first quarter of 2025, reserve assets recorded an increase of KHR 495 billion compared to an increase of KHR 2,272 billion in the previous quarter, and a decrease of KHR 639 billion in the same period last year.

INTERNATIONAL INVESTMENT POSITIONS

At the end of the first quarter of 2025, Cambodia’s international investment position posted net external liabilities of KHR 182,866 billion, increased by KHR 38,760 billion (26.9%) from net external liabilities of KHR 144,106 billion at the end of the fourth quarter of 2024, and increased by KHR 33,451 billion (22.4%) from net external liabilities of KHR 149,415 billion at the end of the first quarter of 2024.

Cambodia’s external assets were KHR 155,825 billion, increased by KHR 4,632 billion (3.1%) from 151,193 billion in the previous quarter. Year-on-Year changes, the external assets increased by KHR 17,555 billion (12.7%) from KHR 138,269 billion.

Figure 8: International Investment Position Aggregates

Cambodia’s external liabilities were KHR 338,690 billion, increased by KHR 43,391 billion (14.7%) from KHR 295,299 billion at the end of the previous quarter. Cambodia’s external liabilities increased by KHR 51,007 billion (17.7%) from KHR 287,684 billion at the end of the same period last year.

TECHNICAL NOTES

CONCEPTS AND DEFINITIONS

The Balance of Payments (BOP) and International Investment Position (IIP) statistics are compiled by the External Sector Statistics Division of the Statistics Department of the National Bank of Cambodia (NBC). BOP and IIP statistics are published on a quarterly basis in local currency (in KHR billion). From the second quarter of 2019 onwards, the NBC compiles and publishes the Balance of Payments (BOP) and International Investment Position (IIP) statistics, based on the Balance of Payments and International Investment Position Manual, the Sixth Edition (BPM6), published in 2009 by the International Monetary Fund (IMF).

These statistics cover all economical transactions of economic institutional units such as general government, central bank, deposit taking institutions, other financial institutions, business enterprises, households, and non-profit institutions serving households as the residents of Cambodia with the nonresidents. All transactions are recorded at market prices, wherever possible, and based on an accrual basis. For the current practices, some data and classifications are estimated due to the insufficient data sources. Merchandise trade data is collected from the General Department of Customs and Excise of Cambodia of the Ministry of Economy and Finance (MEF). The exports of goods are recorded based on a free on board (F.O.B) basis, while the imports of goods associated with a cost principle of insurance and freight (C.I.F) basis are to be adjusted to F.O.B value. Other administrative data, especially data for services, primary income, and secondary income, are recorded when economical transactions occur or on an accrual basis; while the other data, which are not accessible from the administrative sources, are taken from the International Transaction Reporting System (ITRS), recorded on a cash basis, and from an estimated data from surveys (if any). At the same time, financial transactions are recorded whenever economic transactions occur or on an accrual basis. The recordings of arrears are consistent with BPM6 standard.

Accordingly, the compilers of BOP and IIP data face many challenges. For instance, in the current account, the challenges include 1/- the coverage of Goods that are not passed through the custom 2/- some service items and primary income data from administrative sources are available only in semester or annual basis and some are from the occasional surveys and 3/- the limitation of data sources on secondary income under the form of private transfer, government transfer and capital transfer. Likewise, the data received on IIP are still inadequate such as foreign direct investment and other investment by private sector as well as the Cambodians' investment abroad due to the constraints on data sources. Currently, Foreign Direct Investment (FDI) data relies heavily on administrative data; however, in standardized rule, the FDI data should be compiled based on a regular survey. Within the same context, the compilation of FDI statistics on the country of origin of foreign investors is not fully accessible. At the present time, in terms of foreign debt, data source is only available to compile external debt of public sector, particularly in general government and central bank; while the data source to compile external debt of private sector, except banking sector, is not available. Moreover, a regular survey to compile this data is not feasible.

EXPORTS AND IMPORTS OF GOODS

The estimated methodology for General Merchandise Trade is made for exports and imports with tax or tax-free, including informal trade.

Export Goods is estimated by the main commodities such as garments (clothes, footwear, travelling goods and others garments), manufacturing products excluded garments (vehicle

parts, electrical parts, bicycles and others manufacturing products), agricultural products (rubber, paddy rice and other agricultural products) and re-exports, which are based on the data from the General Department of Customs and Excise of Cambodia of the Ministry of Economy and Finance (MEF), combined with an additional estimation of informal trades through the border trade observations, and an additional data from relevant ministries and business partner countries.

Import Goods is estimated by the main commodities such as raw material imports, garment materials, construction materials and equipment, vehicles, petroleum, food and beverage, non-monetary gold and other goods, based on the data from the General Department of Customs and Excise of Cambodia of the Ministry of Economy and Finance (MEF), from C.I.F basis to F.O.B. basis, combined with an additional estimation of informal trades through the border trade observations, and an additional data from relevant ministries as well as mirror data.

SERVICES ACCOUNT

Freight is estimated at 9 percent of C.I.F while insurance fee is at 1 percent of C.I.F. Freight for imports and exports are apportioned among air, sea, road, and other transport means. Freight on imports carried by nonresident airlines is estimated by applying an average freight rate per ton to the quantity of imports. Freight on exports carried by the resident airlines is estimated by using the same methodology.

For Air Transport: Passenger fares paid by residents to nonresident airlines are estimated based on information on the number of passengers combined with data collected by the State Secretariat of Civil Aviation and the General Department of Immigration of the Ministry of Interior (MOI) on the number of resident and nonresident arrivals and departures, and the number of passengers on each airline. The average fare of both resident and non-resident passengers, paid to both domestic and non-resident airlines, are estimated by using data from travel agencies and ticket prices on each airlines' website. Other air transportation services are estimated from an information provided by the resident airlines for expenditure in foreign airports and an information provided by the State Secretariat of Civil Aviation for expenditure in Cambodia by nonresident airlines.

For Sea Transport: Freight on imports carried by nonresident carriers is estimated by deducting freight on air imports from an estimation of freight on total imports and applying to the result of the share of nonresident shipping. Freight on exports carried by resident carriers is estimated by multiplying an average freight rate for exported goods with a proportion of the ton of exports estimated to be carried by residents. Other sea transportation services are estimated from information provided by resident shipping agents and port authorities.

For Travel (credit): Income from travel (credit) is estimated according to the type of travelers such as tourists, business travelers, diplomats, and gamblers. Information on the number of arrivals such as business travelers, diplomats, gamblers, length of stay and the average cost per traveler are collected from the Ministry of Tourism (MOT), Ministry of Interior (MOI), travel agencies and surveys.

For Travel (debit): Expenditure of travel (debit) is estimated based on the number of foreign travelers abroad, length of stay and the average cost of each type of travelers abroad. Estimated methods are made separately between personal and business traveler, but in the publication, these two data are not divided.

Other Services included construction services, insurance and pensions, financial services, charges for the use of intellectual property n.i.e, telecommunication, computer and information services, other business services, personal, cultural, and recreational services, and government goods services n.i.e are estimated based on the data from ITRS and other

available sources. However, manufacturing services on physical inputs owned by others and maintenance and repair services n.i.e are not available yet.

PRIMARY INCOME ACCOUNT (CREDITS AND DEBITS)

Primary income account includes compensation of employees, and investment income followed by financial instruments such as direct investment, portfolio investment, other investments, and reserve assets. Compensation of employees (credit) is estimated based on the number of Cambodian workers oversea from the Ministry of Labor and Vocational Training (MLVT), the average wages tracked by countries and skills, and compensation of employees working at foreign embassies; while compensation of employees (debit) is estimated based on the data obtained ITRS. The Direct Investment Income (credit) is estimated based on the data obtained from ITRS. Meanwhile, Direct Investment Income (debit) is estimated from the direct investment income of non-residents in banking sector, the listed enterprises received a preferential system from the Council for Development of Cambodia (CDC) and casino sector; while the investment income from other investment companies is not available, and a regular survey to compile these data is not feasible. Further, Portfolio Investment Income is estimated based on the data obtained from ITRS, while the debit segment is not available due to the newly established securities market in Cambodia. Incomes from other investments (credit) are estimated based on the data obtained from ITRS. Meanwhile, the debit portion is estimated based on the external debt statistics from the Department of Debt Management of the General Department of International Cooperation and Debt Management of MEF, the interest paid to non-residents by banks, and the data obtained from ITRS. In addition, interest expenses of the private sector are not available and a regular survey to compile this data is not feasible. Reserve Assets Investment Income is estimated through NBC data.

SECONDARY INCOME ACCOUNT (CREDITS AND DEBITS)

Secondary Income (credit) is estimated based on the data from CDC and government financial statistics (GFS). In addition, workers' remittances are estimated based on the number of Cambodian workers oversea from MLVT, the average wages estimated by countries and expertise combined with ITRS. Secondary Income (debit) is estimated based on the government financial statistics (GFS) for the government side and ITRS for other sectors.

CAPITAL ACCOUNT

The official debt forgiveness data is estimated based on the data collected from the Department of Debt Management of the General Department of International Cooperation and Debt Management of MEF. Private sector debt forgiveness data is not available. Other capital transfer data is estimated based on the data collected by CDC.

FINANCIAL ACCOUNTS

Foreign Direct Investment (FDI) is categorized into investment instruments such as direct investment, portfolio investment, financial derivative instruments, and other investment and reserve assets. FDI (asset) is estimated based on ITRS; while FDI (liability) is estimated from the non-resident direct investment data of banking sector, the listed investment enterprises received a preferential system from CDC. The investment of other investment enterprises is estimated based on ITRS due to unavailable data from the survey. Portfolio Investment (asset) is estimated based on the data from banks and ITRS, while the liability side is not available due to the newly established securities market in Cambodia. Additionally, Financial

Derivative Investment is not available. Other Investment (asset) is estimated based on the data from banks, MEF and ITRS; while the liability portion is estimated based on the data from banks and ITRS. The reserve asset is estimated based on NBC data.

INTERNATIONAL INVESTMENT POSITIONS AND EXTERNAL DEBT

International Investment Positions (IIP) statistics are estimated by the same methodology in financial account, but are calculated as stock position, including exchange rate changes, price changes and other changes. Foreign Direct Investment (FDI) is categorized into investment instruments such as direct investment, portfolio investment, financial derivative instruments, other investments, and reserve assets. FDI (asset) is estimated based on ITRS, while FDI (liability) is estimated based on the non-resident direct investment data of banking sector, the listed investment enterprises received a preferential system from CDC. The investment of other investment enterprises is estimated based on ITRS due to unavailable data from the survey. Portfolio Investment (asset) is estimated based on the data from banks and ITRS, while the liability side is not available due to the newly established securities market in Cambodia. In addition, Financial Derivative Investment is not available. Other Investment (asset) is estimated based on the data from banks, MEF and ITRS, while the liability portion is estimated based on the data from banks and ITRS. The reserve asset is estimated based on NBC data.

The external debt is estimated based on the data from MEF, NBC and banks. In addition, the external debt for the private sector, except the banking sector, is not available and a regular survey to compile this data is not feasible.

DISSEMINATION AND REVISION

Dissemination of Balance of Payments (BOP) and International Investment Position (IIP) statistics are published in the Cambodia Balance of Payments Statistics Bulletin in the form of hard copy and on NBC website in the form of soft copy, on a quarterly basis as well as in the semester and annual reports of NBC, Cambodia Enhancement General Data Dissemination System (e-GDDS) and Balance of Payments Statistics Yearbook of International Monetary Fund (IMF).

The BOP and IIP statistics are subjected to revision due to the revision of data and data sources, expansion of data coverage and revision of compilation methodologies. The adjustments are made with the aims of strengthening the quality of data and scope, and the consistency with other macroeconomic statistics such as National Account Statistics (NAS), Government Financial Statistics (GFS) and Monetary and Financial Statistics (MFS).

SUMMARY THE CHANGES FROM BPM5 TO BPM6

No.	Name	BPM6	BPM5
1	Current and Capital accounts transactions	Credit and Debit transactions are recorded with a plus (+) sign.	Credit transactions are recorded with a plus (+) sign, while Debit transactions are recorded with a minus (-) sign.
2	Financial account transactions	Financial flows are presented on a net basis for each instrument: <i>Net acquisition of financial assets and net incurrence of liabilities.</i>	Financial flows are presented in detail on credit and debit: <i>financial assets and financial liabilities.</i>
3	Financial account	Form of presentation: <i>net acquisition of financial assets/net incurrence of liabilities/net</i> <ul style="list-style-type: none"> • net acquisition of financial assets - the increase in financial assets minus the reduction of financial assets. • net incurrence of liabilities - increase in liabilities minus the reduction of financial liabilities. • net - net acquisition of financial assets minus net incurrence of liabilities 	Form of presentation: <i>credit/ debit/ net</i>
4	Financial account	The increase in both financial assets and financial liabilities is recorded with a plus sign (positive), while the reduction in financial assets and liabilities - with a minus sign (negative).	The increase in financial assets and reduction in financial liabilities is recorded with a minus sign (negative), while the reduction in financial assets and increase in financial liabilities - with a plus sign (positive).
5	Financial account	The Net in BPM6 will have the opposite sign to BPM5, but the same economic significance.	
6	Current and Capital account balance	Net lending (+) / Net borrowing (-) Current and Capital account balance	The current account balance is presented separately, and the capital and financial account balance is also presented separately.
7	Financial account balance	Net lending (+) / Net borrowing (-) Financial account balance	Financial account balance
8	Financial account balance	It is calculated as the difference between the changes in assets and changes in liabilities.	It is calculated as the sum of changes in assets and changes in liabilities.
9	Equality of balances concept	The current and capital account balance is conceptually equal to the financial account balance (<i>the item "net errors and omissions" is introduced to reach equality</i>).	The current account balance is conceptually equal to the capital and financial account balance with the sign reversed (<i>the item "net errors and omissions" is introduced to reach the equality</i>).
10	Net errors and omissions	It is calculated as the difference between the financial account balance and the current and capital account balance.	It is calculated as the difference between the current account balance and the capital and financial account balance.
11	Current account	Primary income	Income
12	Current account	Secondary income	Current transfers
