

NATIONAL BANK OF CAMBODIA

Number B13.014.493 I.N.F

The First National Bank of Cambodia Macroeconomic Conference, 2014
on
“Promoting Access to Finance and Maintaining Financial Stability”

The National Bank of Cambodia is pleased to announce its first macroeconomic conference. The objective of the conference is to foster national research capacity development and policy dialogue on macroeconomic and financial stability issues. In that context, the conference will provide an inclusive platform to bring Cambodian researchers from both public and private sectors to present their research and discuss policy options.

This year's theme is “**Promoting Financial Access and Maintaining Financial Stability**”. This topic has become increasingly important as Cambodia is entering a new phase of growth and the financial system has undergone significant development in recent years. This development is reflected through the increase in financial access provided by the banks and MFIs.

In order to sustain the development of the sector, it is very important to manage the risks deriving from the development of the sector. In this conference, the NBC had selected research papers written by Cambodian researchers on macroeconomic and financial sector issues for the presentation. For the utmost benefit of the conference, the presentation will be conducted in Khmer. The NBC encourages active participation from government agencies, academia, think tanks and private sectors in exchanging views on the selected topics. The takeaways of the conference will serve as inputs for the NBC to formulate policies to support both financial access and stability which is necessary to deliver inclusive growth, job creation, and poverty reduction.

The conference will be held at:

VENUE : Raffles Hotel Le Royal, Phnom Penh
DATE : 30 July 2014
TIME : 08:00 – 12:30
